

ALFREDO S. DIOMANGAY, JR.

Full Stack Web Developer

Calbayog City, Samar, Philippines | +63 960 505 1337 | rheddi02@gmail.com | alfredo-portfolio.vercel.app | github.com/rheddi02

Professional Summary

Full stack web developer with 6+ years of experience building scalable, secure web applications across healthcare, SaaS, and compliance-driven sectors. Skilled in modern JavaScript/TypeScript frameworks (Next.js, Node.js, AdonisJS, Vue.js), database architecture (PostgreSQL, MongoDB, MySQL), and end-to-end delivery from authentication and payments to deployment and monitoring. Currently working as an independent freelance developer delivering full stack systems, admin tooling, and design-driven web platforms for international clients.

Technical Skills

Languages: JavaScript, TypeScript, PHP

Frontend: Next.js, React, Vue.js, Tailwind CSS, HTML/CSS

Backend: Node.js, AdonisJS, Express.js, Laravel

Databases: PostgreSQL, MongoDB, MySQL, Supabase

Auth & Payments: Auth0, Stripe (recurring billing, POS workflows)

DevOps & Tools: Docker, Nginx, PM2, Grafana, Git, GitHub

Work Experience

Freshclinics | Dec 2022 – Jul 2025 | *Software Engineer*

- Led development of production-ready full stack applications using Next.js and AdonisJS, delivering fast, responsive platforms for healthcare clients.
- Integrated Stripe for recurring billing, one-time payments, and POS workflows with PCI-compliant implementations.
- Designed and managed multi-database systems using PostgreSQL (relational) and MongoDB (document-based), optimizing performance and scalability.
- Implemented secure authentication and role-based access control using Auth0 across multiple applications.
- Deployed containerized applications with Docker, reducing environment inconsistencies and improving DevOps workflows.
- Integrated custom POS hardware and software interfaces, improving in-store sales operations and automation.
- Built scalable REST APIs and microservices for internal tools and third-party integrations using Express.js and AdonisJS.
- Collaborated with UI/UX teams using Tailwind CSS and TypeScript to ship modern, maintainable frontend codebases.

Qonvex | Aug 2019 – Nov 2022 | *Backend Developer*

- Developed and launched a high-traffic SaaS application using Laravel and Vue.js, maintaining 99.9% uptime under load.

- Optimized MySQL queries and schema design, reducing API response time by up to 70%.
- Containerized applications with Docker for consistent development, testing, and deployment workflows.
- Deployed and maintained production environments using Nginx, Docker, and PM2, enabling smooth, automated releases.
- Integrated Grafana for real-time monitoring and alerting, reducing downtime and improving incident response time by 40%.
- Implemented secure REST APIs for internal modules and third-party services, enhancing platform scalability.
- Refactored legacy Laravel codebases for improved structure, maintainability, and test coverage.

Selected Freelance Projects

DOCU Portal — Internal Document Management System

Australia (NDIS Sector)

- Built a full stack document management system for an Australian NDIS disability services organization, featuring role-based authentication, compliance tracking, audit trails, and participant file management.
- Delivered as a fixed-price engagement using AI-assisted development workflows (Claude Code) to accelerate build time without compromising quality.

Admin Panel Product

Commercial License Product

- Developed a Supabase-backed admin panel for commercial licensing, including license key validation and domain-locking for code protection.
- Defined pricing structure and partner commission model for distribution through a sales partner.

CKM (Cultivating Kind Miracles) Website

Design & Development

- Built a multi-theme website for a psychosocial training organization, including a 14+ palette CSS design token library and a custom wellbeing scorecard tool.

Zoho Forms Upgrade — Daily Progress Notes

Australia (NDIS Sector)

- Scoped and delivered an interactive HTML prototype and supporting data workbook for an NDIS client's progress notes workflow.

Education

Northwest Samar State University | Jun 2015 – May 2019 | *Bachelor of Science in Information Technology*
